784, by the depth of the lot, win the improvements, Terms: One-shird cash (of which \$80 on each house must be paid at the time of sale); and the residue in equal sums 'n one and two years, for which the purchaser must give notes bearing seven per centium per annum in terest until paid, to be secured by a deed of trust on the property sold, with insurance coverant; the interest to be paid in a fystric, and the conveyancing at the purchaser's cost. The purchaser in HYDE cash.

Oll-&kds CHARLES M. MATHEWS.

THE EVENING STAR.

be Work of Improving, Repairing, Sweeping and Lighting Them. ANNUAL REPORT OF LIEUT. F. V. GREENE.

ANNUAL REPORT OF LIEUT. F. V. GREENE.

The report of Lieut. F. V. Greene for the year ending June 30th last, states that on the 15th of May, 15t9, he reported for duty as assistant engineer of the District of Columbia, and was assigned to the charge of that portion of the work relating to pavements, street improvements, county roads, sweeping and repairs to streets and alleys, lighting streets and generally all surface work relating to the improvement and care of the streets and roads.

How our throacoffffares are Tayle.

He submits a map and a tabular statement showing the condition of carriage ways on the 1st of July last as follows: 23.6 miles, containing 559,351 square yards of wood pavement; 36.1 miles paved, with 933,700 yards concrete and asphaltum; 13.2 miles, with 333,651 yards stone block pavement; 17.1 miles, with 493,300 yards blue stone, cobble and rough stone pavement; 17.3 miles, with 1s1,105 macadam pavement; 16.6 miles (491,717 square yards) gravel r-adway and 83.7 miles (1,183,136 yards) wholly unimproved streets, making a total of 11s miles, containing 2,869,490 square yards of improved carriage ways

THE WOOD PAYEMENTS

are what temain of those hald between 1571 and

unimproved streets, making a total of 1 is miles, containing 2,869,490 square yards of improved carriage ways.

THE WOOD PAVENENTS

are what remain of those had between 1871 and 1874, which aggregated 1,005,231 square yards. They are of various patents and laid in various ways, but with a few exceptions they are now so rotten and broken as to make the streets impassable for ordinary carriages. Under the contracts made in 1878-9, 198,674 square yards o rotten wood pavement have been replaced by asphalt or stone. There remain, however, 559,257 square yards. The amount appropriated for replacement of pavements is \$159,000, and at present prices this will replace only about \$0,000 square yards, leaving 450,000 on hand at the beginning of next year, and at this rate the wooden pavements cannot be replaced in seven years. The importance of providing some means if possible to replace these pavements at the rate of not less than 200,000 yards per year, so as to dispose of them in two or three years at most, is so well appreciated as to call for no special emphasis here.

The NUMEROUS VARIETIES OF SO-CALLED CONCEPTS PAVEMENTS, laid between "I and "5, on various patents, of which the essential features were a base of broken stone, a border of tine stone and coaltar, and a wearing surface of tine gravel or sand, are as a general rule in a fair state of preservation, especially those laid or resurfaced in "5 and "16. There were 700,000 yards of these pavements laid at the end of the last isseal year. The appropriation for repair of concrete pavements for the current year is \$100,000, about sufficient to repair about sufficien

The appropriation for repair of concrete pave ments for the current year is \$100,060 about sufficient to repair about so many squar yards.

yards.

THE TRAP BLOCK PAVEMENTS
laid by the board of public works are in very
fair order, give durable roadways for heavy
traffic, but are not comfortable for carriage
driving.
The rough stone pavements, of granite.

driving. The rough stone pavements, of granite, rubble, &c., had principally by the old corporation, of which there are over 490,990 square yards existing, are much complained of; but these streets are perfectly passable at all seasons, are not injurious to health, and should remain until the wooden pavements are disposed of.

posed of.

THE GRAVEL ROADWAYS

Decur as a rule in the suburbs just within the city limits, and if a slight increase could be made in the appropriation for ordinary repairs to streets and roads, so that these roadways could receive more attention, they would abswer all the demands of the localities in which they are situated for several years to come.

which they are situated for several years to come.

The MacAdam pavements on Boundary, T and 11th streets are in very good order; that on 4½ street, from Maryland avenue to the Arsenal gate, is in very bad order. This was laid in 1872, and relaid in 74 75, and experience has proved that it is not equal to the trailie which passes over it, and it should be relaid with stone.

The pavement on Pennsylvania avenue remains under charge of the Commissioners, under whose direction it was laid; the term of the contractors guarantee not having expired.

NEW PAYEMENTS LAID DURING THE YEAR.

under whose direction it was laid; the term of the contractors guarantee not having expired.

NEW PAYEMENTS LAID DURING TIE YEAR.

During the last fiscal year a considerable amount of new pavement has been laid, principally in place of rotten wood pavement. Two classes were used, asphalt and granite block, the first in localities where the travel is comparatively light.

During the year 141,650 yards were contracted for at \$1.47 to \$2.04 per square yards, including removal of old pavement and graning. The total expenditure has been \$209,450.55 for these pavement. The granite block pavements are square yards we found the properties of the pavement of the pavement

rotten wooden pavements at the earliest possi-ble date.

their Improvement is of Secondary Importance compared to the necessity of replacing the rotten wooden pavements at the earliest possible date.

COUNTY ROADS.

Under this head he states that these roads aggregate a length of 102 miles, exclusive of Tunlaw road, constructed during the past year. They are kept in repair by days labor, under three supervisors. Specific Fepairs in one locality costing over \$1,000 are let by contract. It will not be possible to devote more than \$20,000 to county loads, which will be sufficient for ordinary repairs. On 7th street road not less than \$20,000 will be required to repair the macedam. Attention is called to the Tennalitown road, the only foll road in the District all the others baving become free in 1871. It is not a like of the repair the macedam. Attention is called to the Tennalitown road, the only foll road in the District of the Tennalitown road, the only foll road in the District of the Tunlaw read from Back street, of the condemn this as a free public road. The opening of the Tunlaw read from Back street, deorgetown, about 115 miles, he states, effects a saving in distance, to those residing near the terminus, of two miles, and it is now nearly completed. He refers to the necessity of properly marking the boundaries of roads and recording the plats, and calls attention "to the Lecessity of Imposing some legal restriction on the Bullding District of the City limits. Legislation is needed which should require the lines of subdivision of any property in the District for building purposes to conform to a general plan to be drawn up by the Commissioners and approved by Congress. Unless this is done now, the District government will be required as no distanting purposes to conform to a general plan to be drawn up by the Commissioners and approach as a substrain the streets of these villages, as they be eccessary by the topographical feature of the ground. Already we have Le Dioit Park, Howard subdivision, Mount Pleasatt and other villages is to those of the city, other of

accomplished by condemning property already improved.

THE REAUTY OF THE CITY OF WASHINGTON arises from the fact that it has not, like most other cities, grown up at hap-hazard, but in accordance with a well-matured plan, framed in advance, and uniformly adhered to, for the general good, without regard to particular interests. The same plan should now be applied to the suburbs, and it cannot be undertaken too soon. An indispensable prerequisite to this, however, as well as to a proper marking and record of the roads, already existing, is a thorough geodetic and topographical survey," and he urges that a thorough survey be made, during which the monuments, marking roads, could be set, and he estimates the total cost of a

thorough survey at about \$200,000, and suggests that if Congress would authorize the enpayment of the offices and instruments of the Cast Survey for this purpose, the District would be spared nearly half the expense, and recommends that \$10,000 be appropriated to commende such survey.

THE ALLOTMENT FOR CURRENT WORK of repairs of streets, alleys, county rouls, &c., was \$94.24, of which \$26,45.24 was expended on county roads, \$81,162.00 on roads in George town, and \$85,855 on streets, alleys and sewers in Washington and Georgetown. For the current year the allotment is for salaries, \$7,500; for labor, material, &c., \$75,500; a total of \$3,000-\$11,941 less than last year, and this will not be sufficient for the necessary current repairs on streets and county roads.

The October Elections.

FOSTEE'S MAJORITY IN OHLO 20,000, AND THE LEGISLATTER DECIDEDLY REFUBLICAN.

An Associated Press dispatch received from Columbus, Ohlo, at midnight last night says:—"It was reported this morning that Mounts, republican candidate for secaror in the Entire-Warren district, had been defeated by one vote, but this afternoon the republican committee were nothied that he has been elected by 12 majority. This gives the republicans twenty-two senators and the democrata lifteen. According to the best figures obtained, the republicans have elected seventy members of the lower house. Returns from st of the 'SS counties give Foster, re, for governor, 19,021 majority. The other counties will make it 20,000. REFUELICAN MAJORITY IN 100M OVER ALL

Stof 100 members of the house.

Verdict for the Pullman Company.—In the United States circuit court at Philadelphia, yesterday, in the case of George W. Halloway and wife against the Pullman Palace Car Company, for damages for the death of their son by an accident to a Pullman car, Novelheber 1, 1876, when several other persons were also killed, it was shown that the accident was caused by the

gross legligence. Counsel for the company moved a non-sulf on the function of the country moved a non-sulf on the function of the country moved a non-sulf on the function of the country moved in the country of the co

THE WAY IT STRIKES HOLYOAKE,—There is another astonished Englishman making a tour of the West—George Jacob Holyoake the veteran English reformer and radical. He is "enchanted," he says; "this is a marvellous country," and it has a tremendous future; and he adds, "The beauty of the women and the come liness of the men have astonished me, for that is not what we have been led to expect." From this he hastens to infer that "the human race generally is improving."

A RISE IN COAL—The Phitadelphia and Reading Company gives notice that an advance

FERENCE in session in New York, yesterday, the question of "What is wanting to be the successful evangelization of the colored people of the country" was discussed by Rev. Dr. Lyman, assistant bishop of North Carolina, Rev. Dr. Alex. W. Weddell, of Richmodd, Va., and Rev. Robert White, a Virginia missionery.

THE LONG-PENDING PATENT SUIT of Auton Miller, Christian Wooley and Ferizer Bros. vs. S. J. Force & Co., in the U. S. court at Louisville, Ky., involving a patent process by which a mark is impressed into the face of plug tobacce, has been decided in favor of complainable. The suit was defended by a combination of Learly all the plug tobacco manufacturers in the country. the country.

THE AMERICAN GAS LIGHT ASSOCIATION met in Philadelphia Wednesday. It is composed of superintendents and managers of gas companies throughout the country. The following officers were elected for the ensuing year:—President, W. H. Price, of Cleveland, O.; vice-Presidents, Gen. A. Hickenlooper, Chncinnatt, O.; J. P. Harbison, Hartford, Conn.; G. A. McItthenry, Washington, D. C.; secretary and treasurer, Wm. H. White, of N. Y.

urer, Wm. H. White, of N. Y.

THE FALL RIVER STRIKERS.—The majority of the old spinners at Fall River, Mass., have now returned to work, but several hundred have not yet been able to do so. At a meeting of the spinners it was voted by those who had secured work to tax themselves \$1 per week for the support of their non-working brethern.

Snow At CHEVENNE.—The signal bureau reports that a heavy snow was falling at Cheyenne, W. T., at 437 p.m. Wednesday. The temperature was at 20 deg., wind northwest, blowing 40 miles an hour. Snow had stopped falling at night, but the weather was still cloudy.

DEATH OF A MILLIONAIRE BRIDEGROOM.— Henry H. Farnum, President of the National Bank of Port Jervis, N. Y., and one of the wealthlest men in Orange co., died Tuesday after a short illness. He was Tiyears of age, and leaves a fortune estimated at \$1,000,000 to his widow, to whom he was married but six
